3.	From the Superintg. Engineer, Western Circle No. 1443 dated 24th March 1909 forwards a modified Estimate for Rs 5739/- for the Construction of the Math and ~~Temples Mandapams Prakaras~~ for repairing the existing temples A Sum of Rs 3305/- was sanctioned in 1908 for the above works. On the representation made by the disciples of the Math, a revised Estimate was called for. The Modified Estimated is for Rs 5,739/- The excess is due to the extension of the Math on the site newly acquired by the devotees of the Math and to the substitution of teak wood work for jungle wood. (Rs 2434/-) The Office note in the linked file gives details. The present revised Estimate is submitted as called for. Submitted for orders Dft 31/3/09 Draft for sanctioning the revised estimate for Rs. 5739 submitted to Accountant vide. Accountant for 6/4/1909 The draft is approved

jungle wood, the cost of the latter project is said to amount to Rs 7,176.

Hag X)

As prayed for by the Sri Uttaradi matt people and other inhabitants of Ramanathapuram, another estimate for Rs 8419/- for a spacious building with a no. of rooms and also to shift the Anjaneya temple from its present site and rebuild it in the centre portion of the new structure. If Teak wood is substituted for jungle wood, the estimate is said to amount to Rs 9375/-.

Hag W)

Hag Y)

Hag Z)

The Supdtg Engineer recommends sanction to the estimate for Rs 9375/- as it is reported that owing to heavy rain-fall at Ramnathapuram, the jungle-wood would soon deteriorate and that teak wood must preferably be used for this locality. The Ch. Engr upholds the above recommendation.

To,

The Secretary to Government,

General and Revenue Departments, Bangalore.

Sir,

Referring to your letter No. 184/Muz.61-08-2 dated 9th November 1908, and Reminder No: 703/61-08 dated 15-1-09 I have the hono to forward herewith for sanction a modified estimate amounting to Rs: 5,739/- for the construction of a Choultry round the Anjeneyaswami Temple at Ramanathpur, Arkalgud Taluk, Provision is made in the estimate for repairing the existing temple and it is not desirable to shift it to the centre of the Court yard as once suggested. A project amounting to Rs: 3,305/- was sanctioned by Government for the above work in April 1908, in Government Pr No: 4501-5 dated 16-4-1906.

The modified estimate now prepared amounts to Rs. 5,739/- resulting in an excess of Rs. 2,434/- over the original sanction This excess is ~~possibly~~ partly due to the extension of the Mutt on the site newly acquired by the department and partly to the substitution of teak wood work for jungle wood, the same being considered necessary for a public building, as jungle wood is liable to be attacked with white ants necessitating constant re-pairs and which are not as a general rule ~~not~~ attended to in the institutions of this nature. The report of the Executive Engin with the marginal remarks of the Superintending Engineer and the accompanying plans explains the details of the several items pro-vided in the estimate.

2. If the work is to be undertaken this working season, I --

Through The Chief Engineer of Mysore, Bangalore.

Sir,

With reference to your No.2230/ Muz. 61-08-6 dated 11th June 1909, returning the estimate for rebuild -ing the Sri Uttaradi Mutt and the Sri Anjanayaswami Temple therein at Ramanathpur in the Arkalgud Taluk with a request that an estimate in accordance with Chief Engi -eer's opinion conveyed in his No. 3886 of 12-5-1909 may be prepared and submitted, I have the honour to resubmi the above estimate with plan duly modified for Rs. 4,828, providing jungle wood in lieu of teak wood as originally proposed.

II. The provision made in the above estimate being found insufficient a fresh estimate has been prepared by Mr. Aiyaswami Iyer amounting to Rs. 6,144/- and is herew submitted. The excess of Rs. 1,316/- provided for in this estimate is due to the provision made for laying concret for 1 foot in depth at bottom of foundation, the same being considered necessary to prevent uneven settlement owing to the soft nature of the soil, and partly to the construction of retaining walls for the verandahs all round the court yard which was not provided for in the original estimate. If teak wood is adopted instead of jungle

PB—1000—10-3-03

jungle wood the cost of this project will amount to Rs. 7 176/-. The Executive Engineer explains the details in full in the report accompanying the estimates.

III. The Uttaradi Mutt people and other inhabitants of Ramnathpur having represented in their petition dated 25-4-1910 (herein enclosed) that a spacious building is required with a number of rooms for the use of pilgrims and for the accommodation of His Holiness the Sri Uttaradi Mutt Swami whenever he visits this place and also to shift the Anjanaya Temple from its present site and rebuild it in the centre portion of the new structure; an alternative design with proper site plan (vide Sheet Nos. 3 & 4) is also submitted for orders. This is estimated to cost Rs. 8,419/- including Establishment and Tools & Plant charges. The building as per this design will be 67'-6" x 61'-3" with ten rooms against four rooms of 15' X 11' as originally proposed with four verandahs, one on the outside and three round the inner court yard. The temple is also proposed to be shifted to the centre of the building as shown in plan sheet No. 3. If teak wood is substituted for jungle wood the estimate will amount to Rs. 9,375/-.

IV. It is reported that owing to very heavy rain-fall at Ramnathpur the jungle wood would soon deteriorate and that teak wood must preferably be used for this locality Under the circumstances I would recommend the estimate of Rs. 9,375/- being sanctioned. The Mutt-people state that there is a large sum of money belonging to Uttaradi Mutt in deposit with the Government and pray for a permanent decent structure. But if it is still considered that jungle wood alone is sufficient the smaller project of Rs. 8, 419/- may be sanctioned after consulting the

Mutt

Mutt authorities if considered necessary.

I have the honour to be

Sir,

Your most obedient servar

His Highness the Maharaja of Mysore,

General and Revenue Departments.

Sir,

Adverting to correspondence ending with your letter No. 3096, Muz.Fl. 61-08-11 dated the 1st June 1911, I have the honour to forward herewith plans and estimates amounting to Rs 7,715 for the reconstruction of Uttaradi Mutt at Ramanathpur.

2. An estimate amounting to Rs 12,028 had been sent in by the Executive Engineer, Hassan Division. The Deputy Commissioner to whom the whole of the project papers had been forwarded for opinion states in his letter No. 112/D.P.W. dated 17th December 1912 (copy attached) that only items A to E shewn in the General Abstract of that estimate are urgent and may be carried out. In as much as Ramanathapur is not the permanent headquarters of the Swamigalavaru but might occasionally be used as a temporary residence during his tours to these parts, - - items H to K. are not required. This reduces the estimate to Rs 7,715 against the lumpsum of Rs 4,500 allowed in your letter under reference

3 The designs and work proposed are very suitable and when completed, we shall have a strong, neat and substantial building.

TO

K.R.Srinivasaiengar Esq., M.A.,

Secretary to Government,

General and Revenue Departments,

B a n g a l o r e.

Sir,

Adverting to correspondence ending with your letter No. 1451/Muz.61-08 dated the 21st November 1913, returning the project for the reconstruction of Sri Uttaradi Mutt at Ramnathpur, Arkalgud Taluk, for revision so as not to exceed an outlay of Rs 4,500/-, I have the honour to resubmit the project which now amounts to - - - Rs 4,380/-.

2. The Hall (Item C marked on plan) will, in my opinion, be simply a luxury at times the Swamigalavaru is absent from Ramnathpur. It is only occasionally that the Swamigalavaru visits the place Hence this item, which alone costs more than Rs 3,000/- is now omitted in the present estimate and a compound wall between kitchen block and shops, as marked in blue pencil on plan at a cost of Rs 110/- is now proposed instead. The other items which are included in the accompanying estimate are absolutely necessary for a building like this and none of them can be omitted. The Hall, if at all found necessary, may be considered when funds permit.

I have the honour to be,

S i r,

Your most obedient servant,

K Krishnaiengar

Offg: Chief Engineer of Mysore.
